## Certificated weights for fine regulation

Certified precision weights

Our weights are certified and comply with weight tolerance level M1. The metrological properties of each weight are determined in a German Calibration Service (DKD)-accredited laboratory and certified. This certification originates from the ISO 9000 quality assurance standard and has international validity (unlike official verification exclusively recognised in Germany). Recalibration is not necessary as the weights are not subject to mechanical wear.

### Inhalt

#### Aluminium

1 mg

10 mg

#### Nickel Silver

10 mg

20 mg (2x)

50 mg

100 mg

200 mg (2x)

500 mg

**Price without wooden case 175,- Euro**
